

CANOPY & TENTS

Canopies and Tents are ideal for shading backyard parties or corporate events. Service includes local delivery, installation and take-down during WPR business hours. All canopies/tents must be staked in ground or strapped to 55 gal. water drums to secure. Advance notice with minimum of 2-3 weeks is recommended. Four to six weeks required when city or county permits** are mandated. Optional accessories such as lighting, heating, gutters, sidewalls, and ground covers are available. Decorative pole and ceiling covers may also be added to enhance the canopy's overall appearance. For sizes and pricing and contracting site inspections, contact our office.

**** The State of California requires orders with canopies over 400 sq.ft. and tents over 200 sq.ft. to obtain a permit. Cities and Counties vary in mandating requirement. A Tent is a Canopy with more than 25% siding.**
